

4-Step Ultra Stair - 0106-450-4  
6-Step Ultra Stair - 0106-454-6

Improved Mounting Bracket

The new mounting bracket will let you use one or two layers of 3/4" plywood on top of Multi-Stage and the top step of the stair will be flush with the stage top.

Improved Stair Base

NEW

OLD

The use of rubber base pads instead of two, provides extra stability for the stair

Improved Handrail Post & Socket

The square tube in the guard rail post allows the P-Post to line up better with the hand rails
